The Start of ALPS Global Logistic...

It is a challenging and exciting task for planning and organizing for the brand new ALPS Global Logistic Pte Ltd. Office hunting was a big issue as there were only four of us, we wanted a cozy, family like environment. In less than three weeks, office found, company registered, office furniture brought, mini renovation done, phones lines done, copier purchased – well everything needed to be done for a new office was done! We must say we are amazingly incredible!
